## Features:

FIP gasket system with 316 stainless mounting fasteners for maintaining a NEMA 4X enclosure rating. Polycarbonate thermoplastic material for corrosion resistance and a durable external enclosure accessory. Innovative baffles allow air flow into the enclosure while preventing rain or hose directed spray from penetrating.

## Application:

Enclosure accessory meant for free flow of air through enclosures to aid in venting/cooling equipment housed inside. Work best in pairs for best installed ventilation results. UL listed enclosure accessory when installed on a smooth flat enclosure surface.
