Build America, Buy America (BABA) Compliance Statement

The Build America, Buy America (BABA) Act, Pub. L. No. 117-58, §§ 70901-52, as implemented by applicable provisions of the Federal Acquisition Regulation (FAR), generally requires that infrastructure projects funded by federal agencies use “domestic construction materials.” A construction material qualifies as domestic if it is manufactured in the United States, and either: (1) more than 55% of the cost of all its component parts are also manufactured in the United States, or (2) it is a commercially available off-the-shelf (COTS) item.

Allied Moulded Products, Inc. hereby confirms that the following products produced and sold by Allied Moulded Products, Inc. are COTS items that are produced entirely in the U.S. and therefore qualify as “domestic construction materials” under BABA:

<u>Series</u>	<u>Description</u>
